IN MEMORIAM

In loving memory of Elijah H. McFadden who died one year ago, October 26, 1968.

You told no one a last farewell,
You said good-bye to none,
Your loving heart had ceased to beat
Before we knew you had gone.

Long years of suffering and pain,
Trying to live was all in vain,
God closed your eyes in death,
And took you home to rest.

God gave us strength to bear it,
And courage to meet the blow,
But what it meant to lose you,
This world will never know.

Sadly missed by wife, children, and grandchildren.

11/6/1t

In loving remembrance of our Mother and Dad - Mr. and Mrs. C. D. Drinkard.

Dearest Mother and Dad,
How we miss you since you went away,
We do not need a special day,
To bring you to our minds,
The days we do not think of you
Are very hard to find,
Your places are vacant in our home
And often tears are shed.
You are too far away for eyes to see
But not too far for thoughts to reach.
I look at your picture so often,
And long to hear your voice,
The old home is gone now,
And all we have left,
Are the memories of the happy times we all had together.
We will live and serve our master,
So when life on earth is ended,
We will meet you in heaven some sweet day.

Sadly missed, Children.

11/6/1t

...hibitors have already ...space for Electro Ag ...exhibitors will use ...the available space. ...how you'll want to

...ber ever considered ...soybeans and roasting ...makes the bean usable ...full feed. Soybeans cannot be fed raw. Raw soybeans contain a chemical called trypsin which interfers with animal growth. Roasing eliminates this problem.

You'll want to see this piece of equipment at the show particularly if you grow cattle or hogs.

Consider this! Based on the nutrients in the whole bean that's been roasted, a ton of processed beans are equal to one ton of 44 percent bean meal plus one-half ton of corn.

* * *

Who would have suggested ten years ago that we may be entering a period of decline in food quality. World population is increasing about twice as fast as food production. In 1940 there were 14 acres of the earth's surface available for each person. By 1970 it's estimated to be eight acres per person. India already has less than a half acre per person. It is said that California is covering up 350 acres per day with asphalt and concrete. California has 50 years of productive land remaining if this trend continues.

Marvin J. Gibson (left) of Sherwell Community was recognized as outstanding conservation farmer this year of Campbell County and presented a plaque by Allan Hunter, Extension Agent, (right) at the annual awards dinner at Mazie's Tuesday evening, Oct. 28.

Named Outstanding Farmer

Marvin J. Gibson was recognized as the outstanding conservation farmer this year in Campbell County. Marvin owns and operates a 228 acre general farm in the Sherwell Community near Concord. He became a cooperator with the Robert E. Lee S& WCD in 1948.

Allan Hunter, Extension Agent from Campbell County, and a Supervisor of the R. E. Lee S & WCD showed slides of Marvin's conservation program. All cropland is strip cropped, with natural drainageways (draws) in permenant sod. In addition to a good crop rotation system, a spring has been developed for stock water, and a pond available for irrigation, stock water, and recreation.

Hunter pointed out that Marvin produces over 8 acres of dark tobacco, also produces grain, swine, and has a good herd of Angus cattle. "This herd looks like one of the better herds in the county." Hunter added.

Hunter concluded by saying "He is pretty difficult to make a living these days. Mr. Gibson makes his living entirely by farming and woodland work, and it's evidently a good one."

Torrence On Tech Honor Roll

Blacksburg - Virginia Tech's Corps of Cadets has honored its members who have superior grades, making a 3.0 or better in the university's 4.0 system. A 3.0 is a B average.

M. H. Torrence, junior, agronomy, of Appomattox was among those included in the listing. He is the son of Mr. and Mrs. Elliott Torrence.
